

Energy Systems Integration

Dr. Bryan Hannegan
Associate Laboratory Director
Energy Systems Integration

February 2014

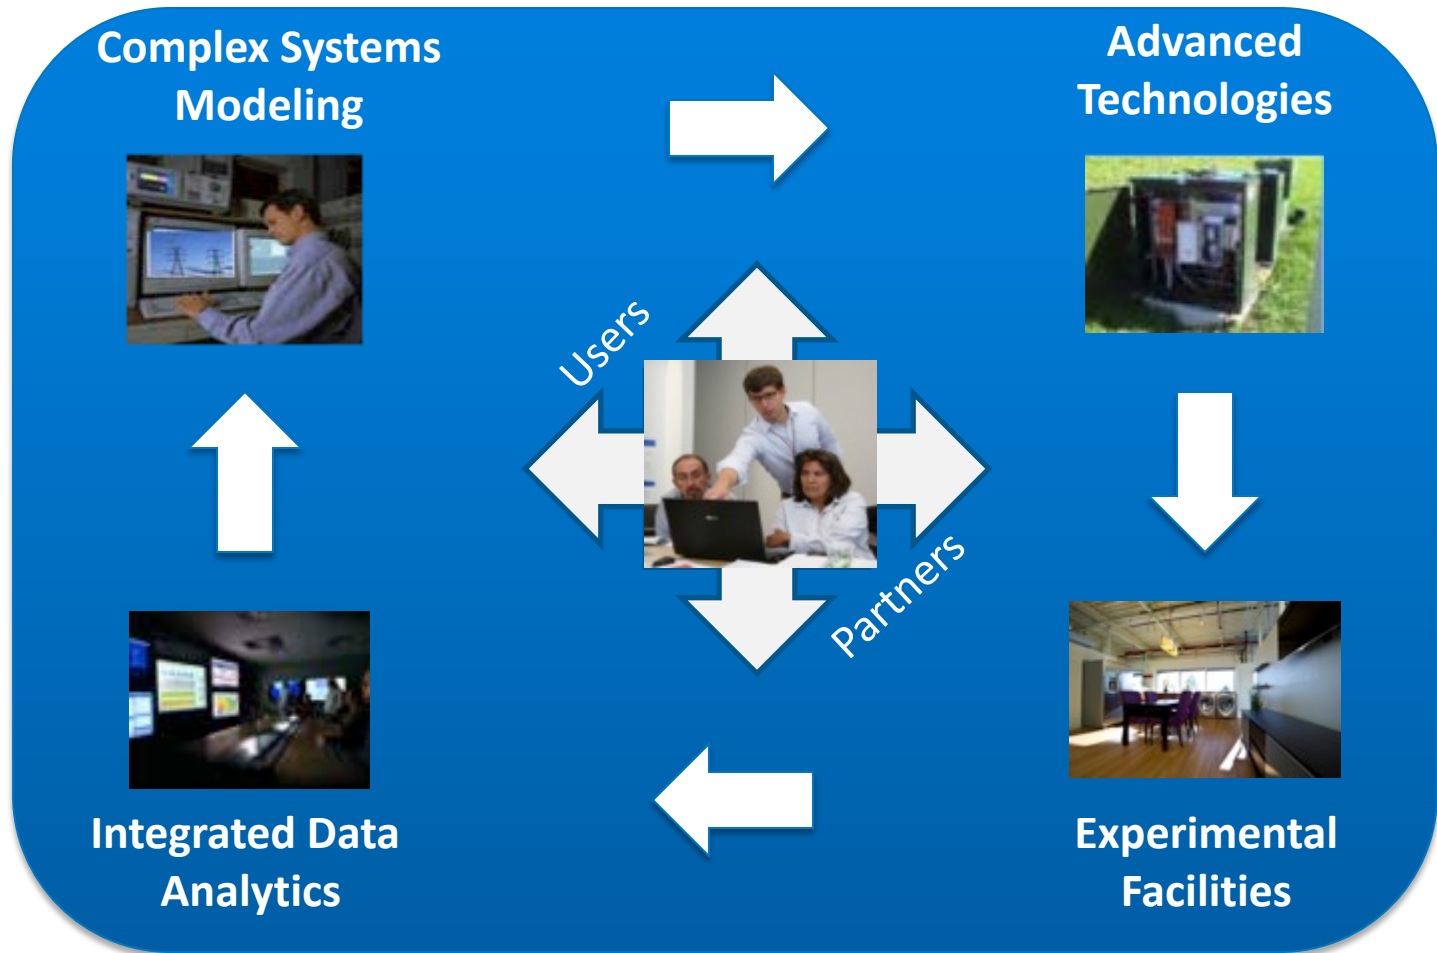

New Approach → Energy Systems Integration

Energy system integration (ESI) = the process of optimizing energy systems across multiple pathways and scales

An Opportunity for Leadership

Energy Systems Integration

Accelerating the Clean Energy Future

Breakout Room Locations

- **#1 Gas-Grid Interdependencies – Arlington Salon 2**
- **#2 Demand Side Management – Alexandria (up 1 floor)**
- **#3 Decentralized Control – McLean (Up 1 floor)**
